

DEBIT CARD **ENABLE/DISABLE** SETTINGS

Wouldn't it be great to have control of the security of your debit card when you aren't using it? That capability is in your hands with a click of the switch!

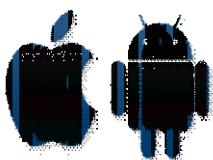

You can maximize the security of your Debit Card by using the **enable/disable** switch through your on-line banking or the **mobile app**. If you haven't signed up for on-line banking yet, contact the credit union. For current on-line users:

ON-LINE BANKING

- Go to www.dpsfcu.org
- Log-on to your On-line banking
- In the list of menus on the left, click on Debit Card Settings
- Click on the enable or disable option

A screenshot of a web browser displaying the DPS Federal Credit Union website. The browser address bar shows a URL starting with 'https://access.dpsfcu.org'. The website header includes the DPS logo and the tagline 'Safety. Security. Service.'. Below the header, there are navigation links for 'Account Summary', 'Transfer Funds', 'Change Password', and 'Security Questions'. On the left side, there is a vertical menu with options like 'Logout', 'Bill Pay', 'View Statements and Tax Forms', 'MoneyDesktop', 'Debit Card Settings' (highlighted with a red arrow), and 'Administration'. The main content area is titled 'Debit Card Settings' and contains instructions: 'The following card(s) are available for immediate suspension or reactivation. Transactions already pending or preauthorized will still be processed despite suspension. To suspend your card, click the Disable button. To reactivate your card, click the Enable button.' Below this, there is a table with columns for 'Card', 'Name on Card', and 'Current Status'. The table shows one card with the number 'xxxxx5009' and the status 'Active'. To the right of the status, there are 'Enable' and 'Disable' buttons. At the bottom right of the page, there is a mission statement: 'Our mission is to provide safety, security, and exceptional service for our members.'
